PROFESSIONAL SUMMARY

Full-Stack TypeScript Developer with 3+ years of professional experience building high-performance web applications, real-time control panels, mobile apps, and automated test pipelines. Specialized in React, Next.js, React Native, Node.js, real-time state synchronization (NATS/JetStream), and comprehensive UI test automation (Playwright, Jest, Vitest).

PROFESSIONAL EXPERIENCE

Frontend Developer & Monitoring Engineer — Amnesh

Dec 2024 – Present

Development Site (Neyshabur, Iran) • Core Product: [AMNET \(amnnet.ir\)](#)

- Architected the AMNET zero-trust monitoring control panel ([amnnet.ir](#)) using React, TypeScript, and Material UI.
- Engineered WebGL network graph visualizations supporting ~10,000 devices.
- Integrated NATS and JetStream for low-latency state streams and remote device command dispatches.
- Built observability and test automation pipelines with Grafana, VictoriaMetrics, VictoriaLogs, Vector, Docker, and Playwright.
- Refactored frontend architectures to eliminate re-render bottlenecks and stabilize real-time state synchronization.
